Product Description

The Mini Ratchet P-Clamp family offers versatility when managing wires, cables and hoses. The clamp size and design make it an ideal P-clamp replacement for securing sensor wires, brake lines or other wires. The one-piece adjustable clamp can be closed by hand to the desired diameter. The release feature provides easy and nondestructive removal of cables simply by using a flat-head screwdriver. This nondestructive release allows the clamp to be reused without removing or replacing any bolts or screws.
