

Specification Sheet

Part Number: 156-01785

Patented retention design on clip features inverted retaining legs, narrow opening and circular retainer to prevent inadvertent disengagement. Controlled flex and angled entry promote easy installation.

Independent rotation allows for adjustable routing orientation.

Cable tie accommodates wide range of secondary bundle sizes.

Product Description

The MOC 180 to Swivel Tie is a rotatable routing clip coupled to a cable tie that keeps two routings secured and separated. Tie provides additional security against axial slip by clamping around solid tube, pipe or harness. The clip's orientation allows the second routing to be assembled in the direction of the first routing. The swivel coupler allows the two routings to rotate independently of each other.
