

## Specification Sheet

Part Number: S3-AK-001

Cable management solutions improve accessibility and organization of the S3 MDU enclosures.

Versatile cable securing and porting designs accommodate many deployment architectures.

Easy installation allows quick configuration for provisioning and reconfiguration when needed.

Anchor Kit, Cable and Strength Member 1-Port for S3, 1/pkg

**Article Number** 857-40530

**Type** S3-AK-001

**Quantity Per** bag

**Product Description** The S3 MDU installation accessories help configure medium wall-mounted enclosures to meet specific deployment needs. Accommodating a number of cable sizes and quantities, parts are easy to install and help to better organize distribution or drop cable locations.

**Short Description** Anchor Kit, Cable and Strength Member 1-Port for S3, 1/pkg

**Global Part Name** S3-AK-001

<b>Technical Description</b>	The anchor kit is used to secure the cable and strength member inside the enclosure and helps to ensure that no undue stress is put upon the fibre cables which may affect the optical performance.
<b>Contents of pkg/kit</b>	Clamp Base (Plastic) Anchor Bracket (Metal) Fixing Screws
<b>Port Count</b>	1
<b>Variant</b>	Indoor/Outdoor FTTx Enclosures
<b>Package Quantity (Imperial)</b>	1
<b>Package Quantity (Metric)</b>	1
