Due to our commitment to accurate data reporting, The Joint Commission is suspending the practice of updating Special Quality Awards until further notice

- **2012** Silver - The Medal of Honor for Organ Donation
- **2010** Silver - The Medal of Honor for Organ Donation

Organization Commentary

Ms. Trisha Lollo, President

Quality Report St. Louis Children's Hospital Organization Commentary on the Quality Report Org ID: 8394
Commentary: As the seventh oldest pediatric hospital in the United States and the oldest west of the Mississippi, St. Louis Children's Hospital has been leading the way in children's health for 125 years. The hospital, in conjunction with its academic partner Washington University School of Medicine, recognized as a national leader in education, training, research and pediatrician scholarship, and is consistently ranked among the top five medical schools in the United States, has cared for patients from around the globe. National and international centers of excellence include the world's largest pediatric lung transplant program, the largest team of pediatric epilepsy specialists, the most comprehensive Cerebral Palsy (CP) Center in the country, and the largest selective dorsal rhizotomy surgical program for children with CP in the world. The hospital's focus on pain management is illustrated by its operational "Ouchless EU." St. Louis Children's Hospital scored in the top 5% of the national database in patient satisfaction as determined by Professional Research Consultants and has received their "Five Star Award" for overall quality of care for each year the award has been offered. The accreditation process continues to be a valuable analysis of our multifaceted, quality-driven approach to pediatric medicine, ensuring the delivery of exceptional care to the population we serve. Our commitment to quality is organization-wide. It is demonstrated by various activities including Patient Safety Rounds led by our senior leadership group, by deploying unit-based pediatric pharmacists on all patient care units to improve medication accuracy, and by the use of a Patient Safety Hotline which allows staff to anonymously report unsafe conditions or practices. We value the Joint Commission's strong emphasis on patient safety and high expectations for organized operational processes. Along with this systematic and sensitive approach to providing care to the children and families we serve, our goal is to unite our medical expertise with a generous dose of tenderness to make the healthcare experience as pleasant and comfortable as possible. "Doing What's Right for Kids" is our mission and exemplifies our pledge to meet and exceed compliance with all regulations and accreditation standards of care.

National Patient Safety Goals and National Quality Improvement Goals

Symbol Key

-  This organization achieved the best possible results
-  This organization's performance is above the target range/value
-  This organization's performance is similar to the target range/value

- ⊖ This organization's performance is below the target range/value
- Ⓝ This measure is not applicable for this organization
- Ⓝ Not displayed

Measures Footnote Key

1. The measure or measure set was not reported.
2. The measure set does not have an overall result.
3. The number is not enough for comparison purposes.
4. The measure meets the Privacy Disclosure Threshold rule.
5. The organization scored above 90% but was below most other organizations.
6. The measure results are not statistically valid.
7. The measure results are based on a sample of patients.
8. The number of months with measure data is below the reporting requirement.
9. The measure results are temporarily suppressed pending resubmission of updated data.
10. Test Measure: a measure being evaluated for reliability of the individual data elements or awaiting National Quality Forum Endorsement.
11. There were no eligible patients that met the denominator criteria.

The Joint Commission only reports measures endorsed by the [National Quality Forum](#).

* This information can also be viewed at [Hospital Compare](#).

** Indicates per 1000 hours of patient care.

*** The measure was not in effect for this quarter.

---- Null value or data not displayed.
